

Engarde-Service modifications of January 6, 2021

On the home page, there are two complementary sections:

"3 days " to list the competitions of yesterday+today+tomorrow

"Weekend" to list the competitions of the current weekend or next weekend
(Friday+Saturday+Sunday)

The state of the competition is displayed after its title in brackets, e.g.:

2020 12 20	ESP Valladolid	Sabre ♂ senior TEAM	Loc. Sable Masculino Equipos ABS (empty) ▶	Smart ▶
2020 12 20	ESP Valladolid	Foil ♂ senior TEAM	Loc. Florete Masculino Equipos ABS (completed) ▶	Smart ▶

The state is " empty ", or " list " when you just have the list of fencers, or " poules " or " tableaux " or " completed ".

Searches have less criteria than before, but they have an "Order by" in addition:

Country Type From To Order by:

Criteria are displayed below

2020-09-01 2021-01-06 - HUN National Order by: Type-Date 133 competitions << page=1 >>

Yesterday today tomorrow 3 days and weekend have just the criterion " Order by".

Yesterday▶ Tomorrow▶ 3 days▶ Weekend▶ 0 competition Order by: Type - Date ▼

Dates are displayed:

Weekend (2021-01-08 to 2021-01-10)

You can choose the number of lines displayed per page:

Display: extended

Display: condensed

10 rows per page

20 rows per page

50 rows per page

100 rows per page

There are always the "extended" and "condensed" modes indicated in a previous message.

There are more parameters added to the urls, in particular the language, the mode, the number of lines displayed per page, the page number. This way, the parameters modified by menus are kept from one page to another and when you click on a competition and go back, you are back on the page where you were with the list of competitions you had.

In condensed mode, competition titles are truncated to 40 characters and city names are truncated to 10 characters for correct display on the smartphone.
